

INVITATION

FUTURE VISION SEMINAR

Save the date – September 20th, 2017

Welcome to a seminar focusing on defining visions for the future development of the Institute of medicine. During this day you will be given opportunity to contribute with creating the future goals for our institute. It will be an exciting and creative day for all employees. The day will also focus on socializing and networking, ending with dinner and entertainment at the venue.

Venue: Scandic Hotel Rubinen, Kungssportsavenyn 24

Time: 11.30 – late

The final program will be announced shortly but we can already reveal that the day will include an inspirational lecture by the professional adventurer Aron Anderson.

Aron will talk about how to realize your dreams – about goals, motivation, teamwork and drive. Besides Aron's gripping story, he will also share some of his best success strategies and how you think and work together to dare to take on – and achieve – really big goals. Aron attaches great importance to mental attitude.

Welcome,

Hans Carlsten and the organizing committee
